Jasmin (23), Ethnographic Questions on the topic of COVID

1. What region of the Valley are you from, which city were you in during COVID?

Brownville

2. Do you recall how you first heard about COVID?

Yes, through the TV & people

3. Were you working during the outbreak?

Yes

4. Was there an immediate impact to you?

Yes I couldn't see my family and we had to wear masks everywhere because I was scared of going out in public.

5. Do you believe the valleys response was quick enough or appropriate?

No I feel people didn't take it serious and didn't really care

6. How did it impact your family and friends?

I couldn't travel to see them and if we wanted to see each other it was through video call

7. When shots became available to the public, did you go out of your way to acquire them?

No, due to my health issues and immune system

8. From your point of view, has the RGV suffered more than other regions of the United States? (in any form/economics-populations-structure)

Yes because we didn't really listen to the rules for COVID.

9. If another, different epidemic was to happen, what do you believe will go differently?

Yes, people might be mindful about it

10. Lastly Have you or people you known been affected by any long term effects of COVID?

Yes, I'm prone to getting more sick.
