Daniel (22), Ethnographic Questions on the topic of COVID

1. What region of the Valley are you from, which city were you in during COVID?

Brownville

2. Do you recall how you first heard about COVID?

By my history teacher, he warn me about this sickness and told me to take care of myself.  
It was around January 2020

3. Were you working during the outbreak?

No I was in high school

4. Was there an immediate impact to you?

Yes I got isolated with my mom for 2 years and missed 2 years of my life

5. Do you believe the valleys response was quick enough or appropriate?

No, damn those saint joe students who went to china

6. How did it impact your family and friends?

I didn't see most of family for months but with my friends it didn't change much we would play a lot of among us

7. When shots became available to the public, did you go out of your way to acquire them?

YES

8. From your point of view, has the RGV suffered more than other regions of the United States? (in any form/economics-populations-structure)

I don't know, I knew some people die, but I don't know how bad the impact was.

9. If another, different epidemic was to happen, what do you believe will go differently?

No

10. Lastly Have you or people you known been affected by any long term effects of COVID?

No, I know some did lose the ability to taste for some time and came back eventually.
