## \* HONORS STUDIES

To graduate in the Honors Studies framework, a student must maintain a high academic average, must take a specific number of honors classes at the freshman-sophomore level, must complete a program of independent study and research at the junior-senior level, and must demonstrate proficiency in a specialized area through a senior honors paper and through an oral examination before a faculty committee.

The following students wrote undergraduate theses as part of their graduation requirements within the Honors Studies Program.

Alicia Guffey - "Effects of Gender and Acculturation on Auditory and Visual Memory"

Advisor: Dr. Roy Cain

Cecilia Lira - "The Detection of Possible Mutagenicity in the Herbicide Treflan"
