In 1972 Dr. Julian Castillo was employed by Pan American University as a consultant in Allied Health for the Area Health Education Resources Program (AHERP). The Lower Rio Grande Valley AHERP was conceived primarily as a coordinating mechanism for surveying and planning for meeting health manpower needs in the Valley. He established the Division of Health Related Professions which will become the School of Health Sciences effective September 1993.

During his employment, Dr. Castillo was responsible for the programmatic development and implementation of programs at The University of Texas-Pan American which consisted in the implementation of Clinical Laboratory Sciences Program; Coordinated Program in Dietetics; Rehabilitation Services Program; Physical Therapist Assistant Program thru a Project HOPE grant; the Non-traditional Bachelor of Science Degree in Nursing with a grant; and the Human Services Program (Mental Health/Mental Retardation) which was discontinued after it was moved to the Department of Sociology. Dr. Castillo also assisted Texas State Technical Institution (TSTI) in the implementation of the Operating Room Technician and Medical Office Secretary Program.

Through the successful acquisition of grant funds, Dr. Castillo implemented the following programs within the Division of Health Related Professions. The Coordinated Program in Dietetics was funded thru AHEC; Academic Assistance for Students in Health Careers Program was funded through the Health Careers Opportunity Program (HCOP); Non-traditional Bachelor of Science Degree in Nursing thru a Kellogg Foundation grant; Rehabilitative Services Program with "Los Que Curan," Curanderismo: An Optional Health Care System, funded by the Regional Medical Program (RMP) Service; Substance Abuse Counseling Program Evaluation Center funded by the Texas Rehabilitation Commission; and Developmental Disabilities Program in activities related to cultural diversity in the field of developmental disabilities to develop workshops funded by the University of Nebraska Medical Center.

At the time of his employment in 1973, Dr. Castillo had an office at the old Science Building (on the other side of the railroad tracks on 8th and McIntyre). He moved to the main campus to a temporary building. From there, he moved to the Nursing Education Building. In 1985, he spent six (6) months (July-December) through the N.I.H. Extramural Associate Program in Bethesda, Maryland, in an internship at N.I.H. to obtain on site information about federal health related programs and related grant and contract activities.
