

Colloquium 2022 Call for Abstracts Format

Abstracts may be research-, clinical- or program-focused, and must be submitted electronically.

Research/Clinical Abstracts (Word Limit: 300 words)

Structured abstracts are required and should include four headings: Background, Methods, Results and Conclusions.

1. **Background:** Discuss the importance of the topic and study objectives.
2. **Methods:** Provide a description of setting, target population, study design, sampling techniques, measures, and statistical analyses.
3. **Results:** Summarize outcomes in detail. Clinically focused abstracts may also include barriers encountered translating evidence to practice.
4. **Conclusions:** Provide brief overview of implications for research, practice, and/or policy.

Case Report Abstract Instructions

The Abstract should not exceed 300 words. Please minimize the use of abbreviations and do not cite references in the abstract. The abstract must include the following separate sections:

- **Background:** why the case should be reported and its novelty
- **Case presentation:** a brief description of the patient's clinical and demographic details, the diagnosis, any interventions and the outcomes
- **Conclusions:** a brief summary of the clinical impact or potential implications of the case report
